Forecast For Southwest England
Issued by Met Office Exeter
at 0400 on Wednesday 10 Mar 2021

++ Valid for broadcast between 0600 and 1800

Headline:
Murky weather with persistent widespread rain with strong winds.

Today:
A murky day with widespread and persistent rain, heaviest over hills. Although rather mild, it will feel quite cool as the blustery and strong winds increase throughout the day, creating risks of coastal gales. Maximum temperature 12 deg C (54 deg F).

Tonight:
A brief dry interlude as rain clears the region. Frequent blustery showers follow, occasionally heavy at times. Winds strengthen with coastal severe gales, and risk of inland gales overnight. Minimum temperature 7 deg C (45 deg F).

Thursday:
Unsettled with strong winds and frequent showers, occasionally heavy and risk of hail. Feeling cool in the strong breeze, but brighter conditions with dry spells and clear skies at times. Maximum temperature 10 deg C (50 deg F).

Outlook for Friday to Sunday:
Unsettled days ahead, with frequent heavy, blustery showers throughout this period, with the risk of hail at times, easing slightly on Sunday. Strong winds throughout with gales likely.
